Physical Sciences: Synergy with Mathematics

Prof. R. Chidambaram

DAE Homi Bhabha Chair Professor
Former Principal Scientific Adviser to the Government of India
Former Chairman, Atomic Energy Commission & Secretary, DAE

Physical Sciences and Mathematics are very closely linked, from high energy physics to condensed matter physics and chemistry. Mathematics is used widely in other areas like nuclear reactor design, artificial intelligence and cyber security. Computational Mathematics is also playing an increasingly important role.

The Institute of Mathematical Sciences
IV Cross Road, CIT Campus, Taramani, Chennai – 600113
