

Topics in Biology 2019

A series of lectures on biology for college students

Evolution and Ecology

The Institute of Mathematical Sciences

21st November 2019

09:00 - 17:00

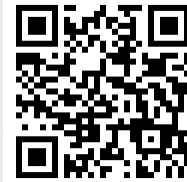

Registration and other details:

<https://www.imsc.res.in/outreach/TiB2019/>

Registration deadline: **18th Nov** (or until we reach capacity)

The program is free. Lunch and snacks will be provided.

IMSc is unable to provide any assistance towards travel/accommodation.

20 μm

*This background features pollen from the Nagalingam (*Couroupita guianensis*) flower viewed under a Foldscope. The flowers have two types of pollen and a special evolutionary relationship with their pollinators, Carpenter bees. As the bees come to collect infertile but nutritious **tetrad pollen** (left), they are dusted with the fertile **monoid pollen** (right).

The Institute of Mathematical Sciences
IV Cross Road, CIT Campus, Taramani, Chennai – 600113.
