

Logic for non-persons?

Rohit Parikh, City University of New York, USA

This talk will concentrate on two themes: (1) To what extent is the reasoning of animals and children logical? What do they think? (2) To what extent can we regard groups: corporations, or political parties, etc. as individuals to whom we can assign goals and beliefs? In other words, how far can we extend the notion of an individual? For the first part, we will refer to experiments in animal behavior and what we know about the thinking of animals and children. For the second we will refer to issues in game theory and in states of knowledge, and subsequent coordinated action arising from communication.?

Ramanujam Auditorium, IMSc
7th January 2020
17:00 - 18:00

The Institute of Mathematical Sciences
IV Cross Road, CIT Campus, Taramani, Chennai – 600113.
