

IMSC Wi-Fi Connection Guide (MAC)

Step1: Download configuration file **IMSC-WIFI.mobileconfig** for IMSc members, or **IMSC-GUEST.mobileconfig** for IMSc guests.

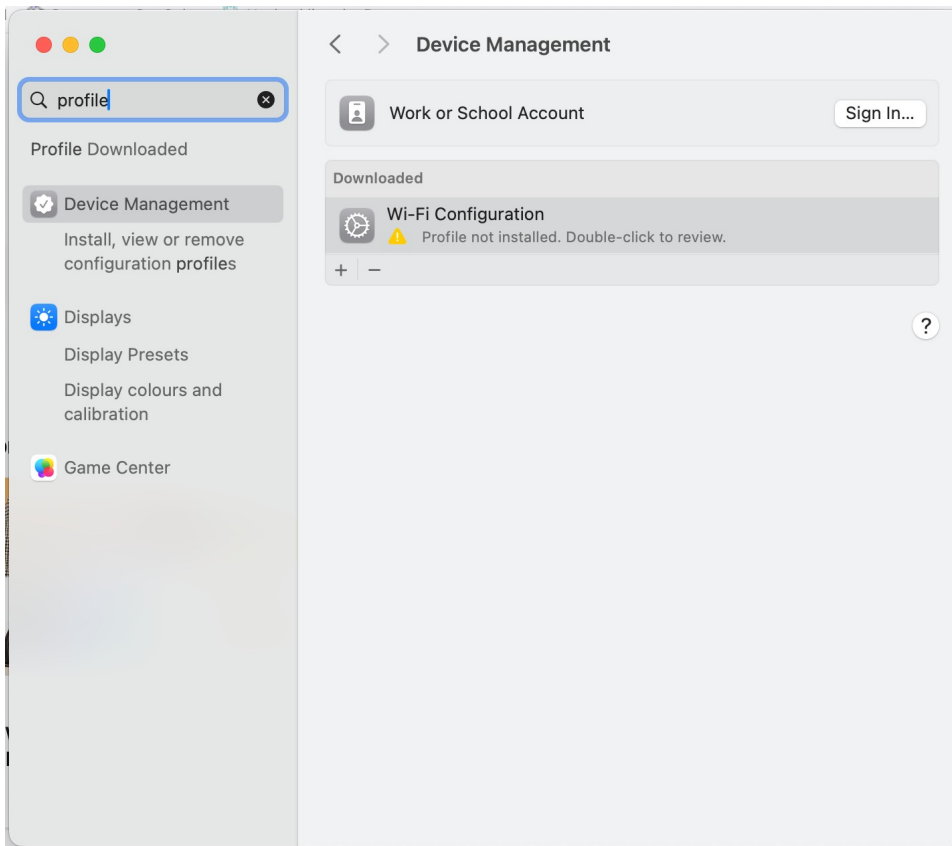

Step2: Double-click the configuration file.

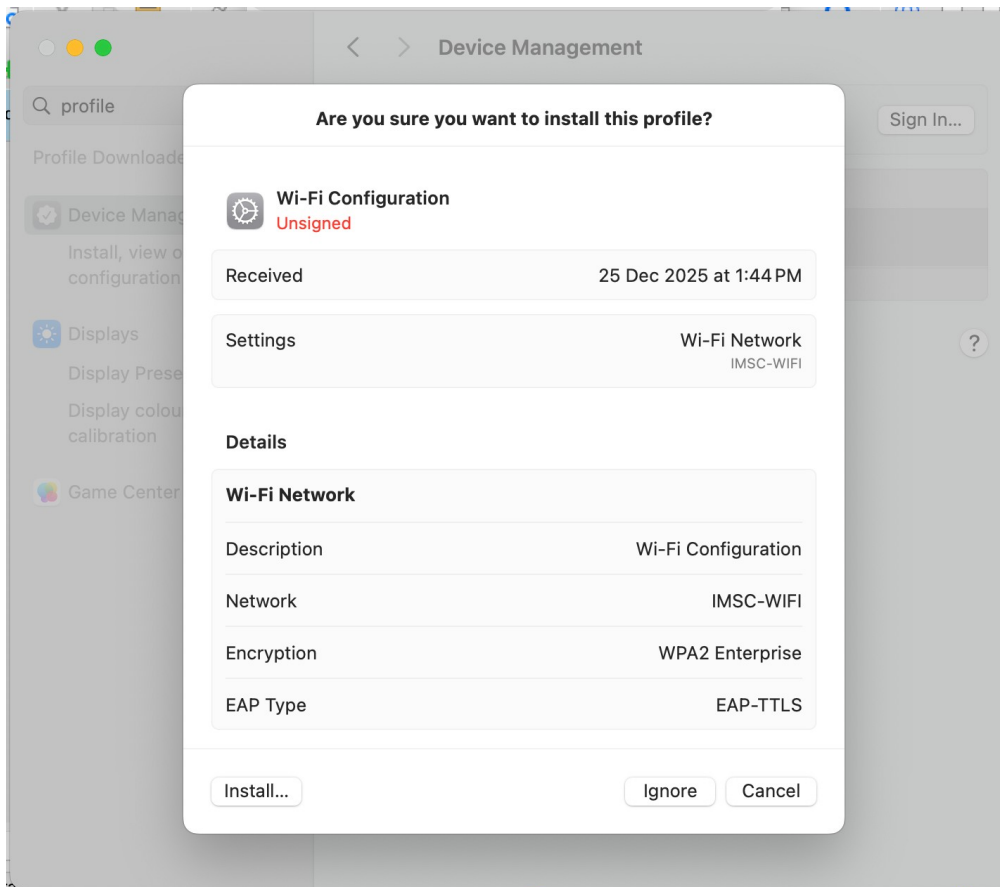

Step3: 'Profile Downloaded' pop-up message will appear. Click OK.

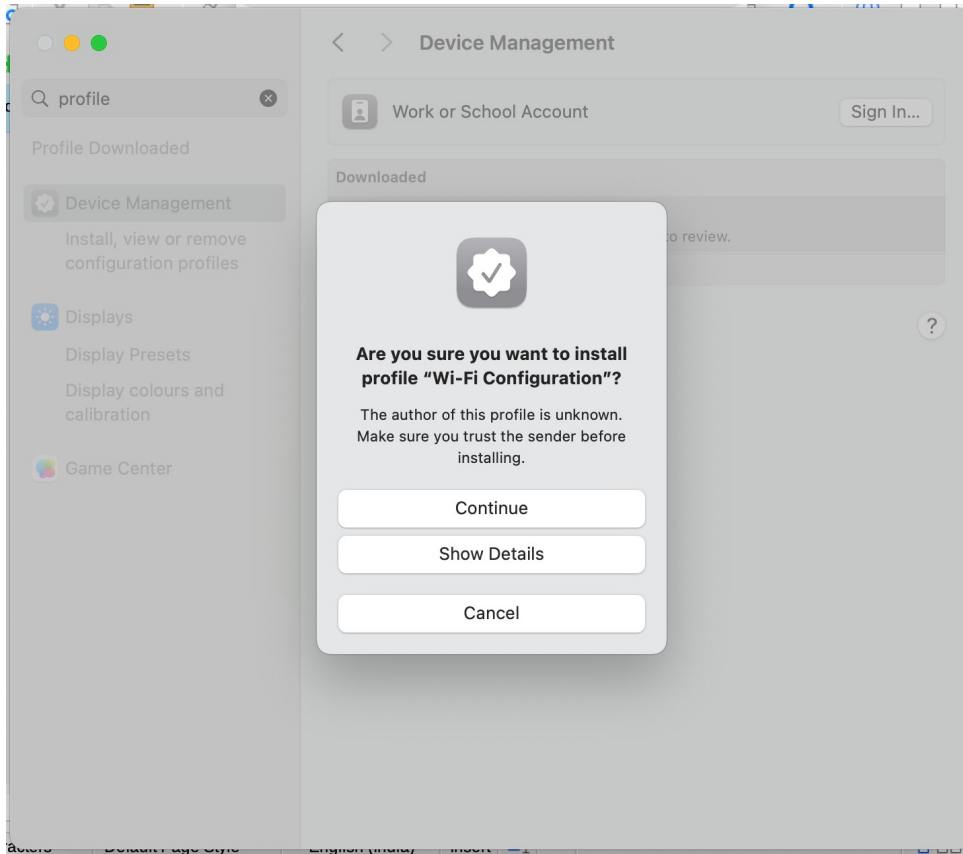

Step4: Go to Settings, select Profile, and double-click the Wi-Fi configuration.

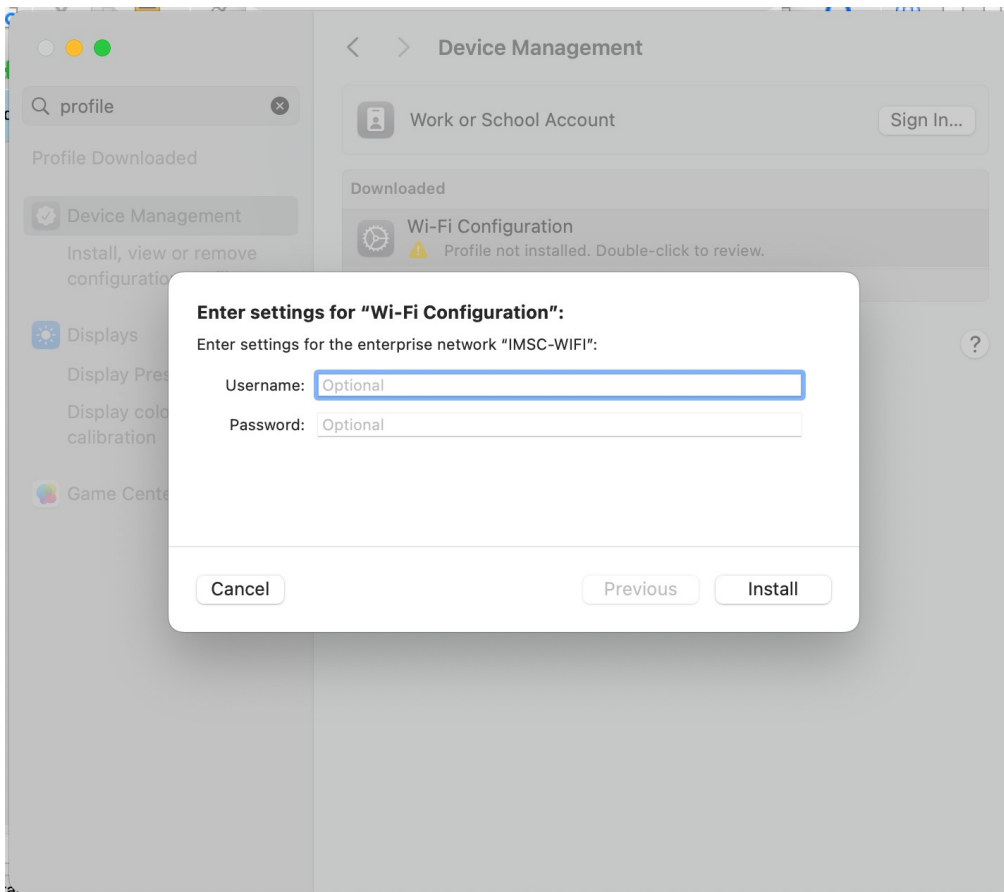

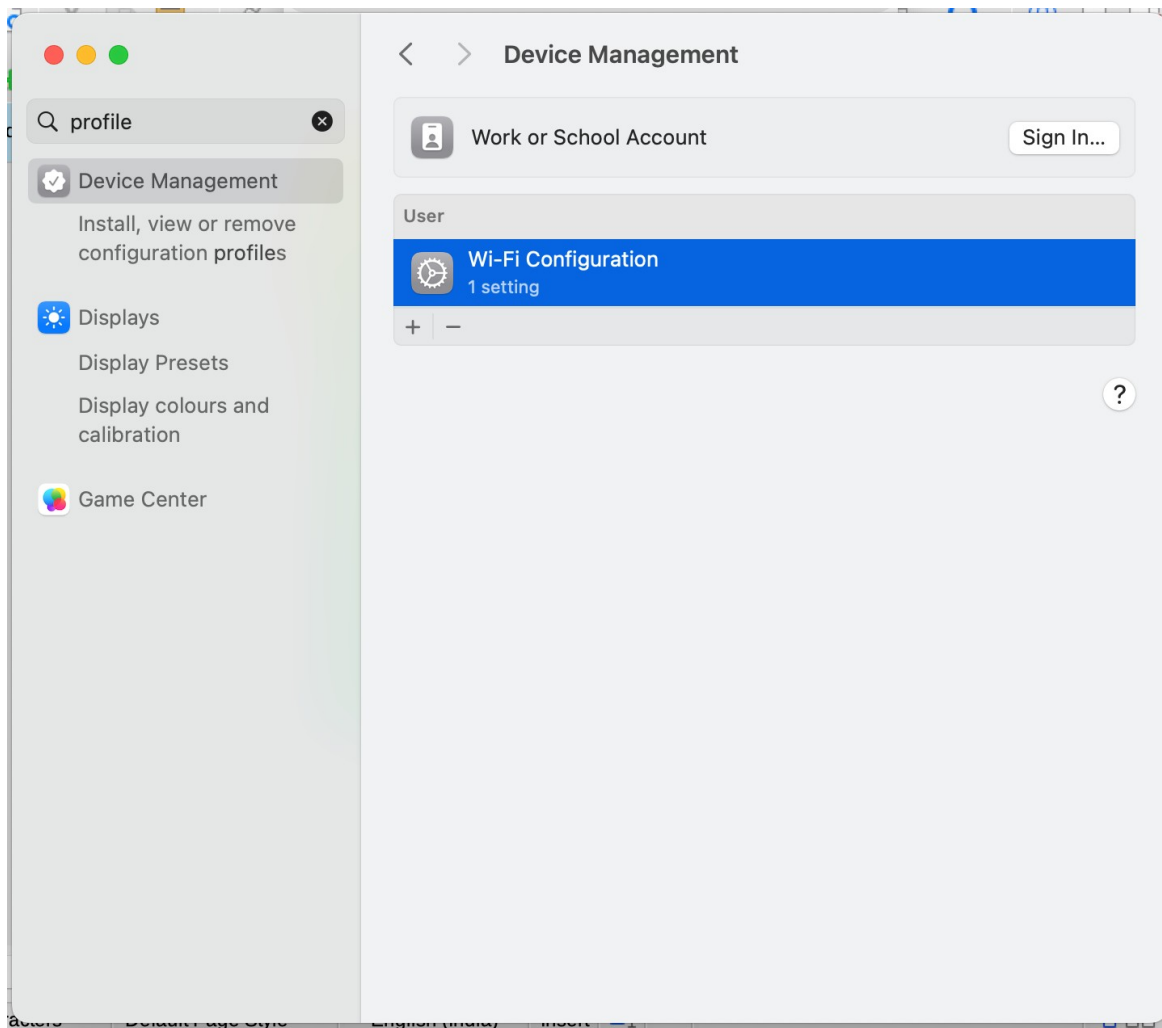

Step5: Click 'Install' and then Continue.

Step6: Enter settings for 'Wi-Fi Configuration' window will appear. There is no need to enter a username or password at this time simply click 'Install'.

Step7: Once everything is set up correctly, you will see the 'Wi-Fi Configuration' settings.

Step8: Now, click **IMSC-WIFI** or **IMSC-GUEST** from the wireless menu. It will ask for a username and password. If you are a member of IMSc, Enter your email username and password. If you are a guest, enter the username and password provided to you.
