

Date: 16 September 2011 (Friday)
Venue: Ramanujan Auditorium, IMSc

Sudarshan Fest

**A one-day programme to honour Prof. E.C.G. Sudarshan
on his 80th birthday**

Ennackal Chandy George Sudarshan (born 16 September 1931) is an eminent theoretical physicist who has fundamentally influenced, through his seminal contributions, developments in several areas of physics including the theory of weak interactions, quantum optics, dynamics of open quantum systems, symmetries in classical and quantum physics, quantum Zeno effect, tachyons, spin-statistics connection, and quantum information science. He served IMSc as director for five years in the 1980's.

PROGRAMME

09:30 am	Inauguration	R. Balasubramanian, Director, IMSc
09:40 am	V-A Theory	Shiraz Minwalla, TIFR
10:25 am	Diagonal representation	R. Simon, IMSc
11:10 am	Tea Break	
11:30 am	Quantum Zeno effect	Anu Venugopalan, GGS Indraprastha University, Delhi
12:15 pm	Symmetries in classical and quantum physics	N. Mukunda, IMSc
01:00 pm	Lunch Break	
03:00 pm	FELICITATIONS AND REMINISCENCES	
05:00 pm	High Tea	

You are cordially invited!
